

SKILLED ESTIMATORS

Increase your quotation & contract bidding capacity. Cost savings of more than 50%.

Work with professionals who can provide you with this crucial activity. An experienced estimator can provide reliable project life cycle costs, identify risks and contingencies. Our Partners have extensive experience in supporting both large & SME contracting businesses in bidding estimating including electrical, residential, building, engineering and consulting.

The last few years have demonstrated that remote working is both practical and productive. Permanent & temporary remote outsourcing offers a real opportunity for Australian businesses to be more competitive and successful. Australian businesses are under increasing stress & risk caused by skill shortages, rising costs and interest rates, wage inflation, customer retention & global competition.

These services offer businesses greater profitability, continuity and flexibility in an ever changing world.

Outsourcing business activities to experienced and trusted partners is a real solution for Contractors of all sizes across all market segments. Our specialist Partner can significantly reduce your costs; provide access to specialized skills & best practices and increase competitiveness. A large global company with 17 years of experience offers highly skilled Quantity Estimators & associated professionals based in the Philippines. All their team members are qualified & experienced business professionals, conversant with Australian standards and systems, training in estimation software, fluent in English and servicing all Australian time zones.
